

Business Regulatory Solutions
Managing risk, protecting your business

Ashfords LLP has partnered with the Chartered Trading Standards Institute (CTSI) to deliver a new and innovative regulatory platform, Business Regulatory Solutions (BRS).

What is BRS?

- An online platform with guidance on a number of regulatory areas (food, fire safety, health & safety, environment, fair trading, product safety, licensing and dealing with customers).
- A tailored and co-ordinated package focusing on your specific business requirements.
- Up-to-date content that is being maintained by experts.
- A perfect regulatory solution for any size business.
- Consistent, easy-to-understand information which takes the complexity out of regulation.

How does BRS work?

Once you have purchased an annual licence and selected your package you will be given a unique login to the online site. On entering the site you will see different regulatory topics, the content within each topic is rated by risk in relation to your business. You are also able to personalise your site and add your own policies and procedures.

How will BRS benefit my business?

- By providing guidance on a number of regulatory areas in one central place
- By supporting you in reducing your risks and working towards compliance
- It can be customised with your branding
- By ensuring you only see information relevant to your business
- It provides easy to use and business friendly information
- It has an area for you to store your own policies and procedures
- It can be accessed on laptops, computers, tablets or phones
- It provides you with up to date information so you don't need to worry about finding the latest version of legislation

What are my options?

We have three packages for you to choose from:

Option 1

Access to one of the following regulatory areas:

- Health and Safety
- Food
- Fire Safety

Chartered Trading Standards Institute (CTSI)

The Chartered Trading Standards Institute (CTSI) is a professional membership association formed in 1881. It represents trading standards professionals working in the UK and overseas - in local authorities, the business and consumer sectors and in central government.

It exists to: promote and protect the success of a modern vibrant economy, and to safeguard the health, safety and wellbeing of citizens by enhancing the professionalism of its members.

CTSI has nearly 60 employees – a number that is steadily growing to meet its developing remit within the consumer, business and political landscapes.
